TERMS, FRAMEWORK AND VERIFICATION

1. Nature of the accreditation

IRCP (International Registry for Certified Professional) is a private accreditation body for training centres, incorporated under the laws of Madagascar and operating internationally. This certificate records a private accreditation decision made by IRCP; it does not constitute a state licence, a state-issued qualification, or an accreditation granted by any Malagasy or foreign public authority.

2. Accreditation framework applied

The assessment leading to this accreditation was carried out on the basis of the IRCP framework for training centres, which was developed drawing on the Standards and Guidelines for Quality Assurance in Higher Education (ESG) promoted by the International Network for Quality Assurance Agencies in Higher Education (INQAAHE), as well as on the principles of the ISO/IEC 17024 standard on personnel certification. IRCP is neither a member of, nor accredited or certified by, INQAAHE or any ISO standards body in respect of this framework; the phrase “aligned with” denotes a voluntary methodological approach taken by IRCP, not recognition by these bodies.

3. Scope and duration

This accreditation covers only the programmes, fields of study and levels listed in the Annex (page 2/3). It is granted for the period stated on page 1 and may be subject to periodic monitoring, renewal, suspension or withdrawal by IRCP, in accordance with the rules of its accreditation framework.

4. Verifying this certificate

The validity of this certificate can be verified with the IRCP secretariat by quoting the certificate number shown on page 1: Address: [] — Email: [contact@ircp-exemple.mg] — Phone: [+261 ____] — Website: [www.ircp-exemple.mg].

5. Complaints and appeals

Any interested party may file a complaint or an appeal regarding an IRCP accreditation decision, following the procedure set out in IRCP's accreditation regulations, available from the secretariat.
